

# We proudly support our partners

"Lemonero embedded financing supports the growth of our clients. They would otherwise have to rely on their own capital, which is often not enough to achieve full potential of their business and thus fulfil their dreams. Moreover, the newly provided service GoPay Financing will prevent our clients from loss and subsequential running out of business. All this will lead to the overall growth of e-commerce."

Michal Baboucek  
Deputy CEO at GoPay

**GoPay** 

"We've achieved a great amount of success with embedded financing from Lemonero. Thanks to focusing on our customers' funding and cash-flow needs, we've built a strong position on the market, increased our own revenue and even raised the lifetime value of our clients."
